

Fin Die Tooling

Building Precision/Delivering Perfection

Tough precision applications demand extraordinary precision tools. At Precision Punch & Tooling, not only have we set the industry standard for fin die tooling, but we continue to raise the bar on performance. We have manufacturing expertise in fin die tooling for premier HVAC manufacturers as well as for many other industries. Whether you order our stock tools or we custom design them for you, our experienced engineering team assures that every fin die tool will meet the exact specifications for your production needs. You can rely on Precision Punch & Tooling fin die tooling for quality and accuracy — *the first time and every time.*

High Quality Products Made in the U.S.A.

Precision Punch & Tooling Corporation is a premier manufacturer of punches, dies, perforators, and precision ground cylindrical parts. In addition to a full line of standard products, Precision Punch & Tooling manufactures high-precision components to customer specifications.

Every day, for every client, for every project, we dedicate the resources and energy necessary to provide unsurpassed quality of products and service.

We build perfection in every fin die tooling part we manufacture, we never settle for anything less than best.

Our custom capabilities are unmatched. Our team of process engineers will work with you from start to finish. They will evaluate your specifications and design a process using state-of-the-art equipment operated by highly skilled, experienced operators to consistently fulfill your requirements. You can count on us to meet your specifications and exceed your expectations.

Made in the U.S.A.

With over 44,000 square feet of manufacturing space in our facility in Berlin, CT, we combine the latest in state-of-the-art equipment with almost 50 years of professional manufacturing experience. This results in products that consistently meet the most precise requirements and stand up to the most rigorous demands.

Partnering

We are committed to developing close and long-term relationships with our customers. These ongoing partnerships enable us to provide optimum value and pricing along with reliable, timely deliveries.

ISO 9001 Certified/ISO 13485 Certified

ISO 9001 Certification attests to our meeting the international criteria for quality management principles, including a strong customer focus, the motivation and implication of top management, the process approach, and continual improvement. ISO 13485 Certification attests to our meeting the requirements for medical devices and related services that consistently meet customer requirements and regulatory requirements applicable to medical devices and related services.

Our superior manufacturing capabilities include:

- ISO 13485 certified
- ISO 9001 certified
- Diameters from .004 to 1.25 inches while holding tolerances down to .0001 inches
- Surface finishes down to 3 micro (Ra RMS)
- Precision ground and hardened parts ground to virtually any configuration and up to 12 inches long
- Concentricity to .0001 inch
