

Wire Die & Nitrogen Gas Springs

Precision Punch & Tooling offers a complete line of versatile **Wire Die Springs** and **Nitrogen Gas Springs** made by Special Springs. It's a natural fit: Precision Punch & Tooling's signature quality and precision, and Special Springs' high level of dimensional accuracy, durability and reliability. That's why many of our customers use these springs along with Precision Punch & Tooling products for injection molding, metal stamping and in tool & die shops.

Wire Die Springs

High Quality Products Made in the U.S.A.

Precision Punch & Tooling Corporation is a premier manufacturer of punches, dies, perforators, and precision ground cylindrical parts. In addition to a full line of standard products, Precision Punch & Tooling manufactures high-precision components to customer specifications.

Every day, for every client, for every project, we dedicate the resources and energy necessary to provide unsurpassed quality of products and service.

We build perfection in every injection molding part we manufacture; we never settle for anything less than best.

Our custom capabilities are unmatched. Our team of process engineers will work with you from start to finish. They will evaluate your specifications and design a process using state-of-the-art equipment operated by highly skilled, experienced operators to consistently fulfill your requirements. You can count on us to meet your specifications and exceed your expectations.

Made in the U.S.A.

With over 44,000 square feet of manufacturing space in our facility in Berlin, CT, we combine the latest in state-of-the-art equipment with over 50 years of professional manufacturing experience. This results in products that consistently meet the most precise requirements and stand up to the most rigorous demands.

Partnering

We are committed to developing close and long-term relationships with our customers. These ongoing partnerships enable us to provide optimum value and pricing along with reliable, timely deliveries.

ISO 9001 Certified/ISO 13485 Certified

ISO 9001 Certification attests to our meeting the international criteria for quality management principles, including a strong customer focus, the motivation and implication of top management, the process approach, and continual improvement. ISO 13485 Certification attests to our meeting the requirements for medical devices and related services that consistently meet customer requirements and regulatory requirements applicable to medical devices and related services.
